**Note:** Based on 2006 WHO reference population

### EQUITY

#### Socioeconomic inequities in coverage

Household wealth quintile:  
- Poorest 20%: [value]
- Richest 20%: [value]

*Source: DHS, MICS, Other NS*

**Note:** The graph shows coverage levels for the poorest 20% (red circles) and the richest 20% (orange circles). The longer the line between the two groups, the greater the inequality. These estimates may differ from other charts due to differences in data sources.
**DEMOGRAPHICS**

**Causes of under-five deaths, 2010**

- No Data

Source: WHO/CHERG 2012

**Causes of maternal deaths, 1997-2007**

- Haemorrhage 34%
- Unsafe abortion 9%
- Other direct 11%
- Indirect 17%
- Hypertension 19%
- Regional estimates for sub-Saharan Africa Source: WHO 2010

**MATERNAL AND NEWBORN HEALTH**

**Antenatal care**

- Percent of women aged 15-49 years attended at least once by a skilled health provider during pregnancy
- Percent of women aged 15-49 years attended at least once by a skilled health provider during pregnancy

- 32% (2010)

**Diarrhoeal disease treatment**

- Children 5 years with diarrhoea treated with ORS
- Children 5 years with diarrhoea treated with ORS

- 23% (2010)

**Malaria prevention and treatment**

- Percent of children receiving first line treatment among those receiving any antimalarial
- Percent of children receiving first line treatment among those receiving any antimalarial

- 51% (2009)

**CHILD HEALTH**

**WATER AND SANITATION**

**Improved drinking water coverage**

- Percent of population by type of drinking water source, 1990-2010
- Percent of population by type of drinking water source, 1990-2010

- No Data

Source: WHO/UNICEF JMP 2012

**Improved sanitation coverage**

- Percent of population by type of sanitation facility, 1990-2010
- Percent of population by type of sanitation facility, 1990-2010

- No Data

Source: WHO/UNICEF JMP 2012

**SYSTEMS AND FINANCING**

**Policies**

- Maternity protection in accordance with Convention 183 - No
- Specific notification of maternal deaths - No
- Midwifery personnel authorized to administer core set of life saving interventions - No
- International Code of Marketing of Breastmilk Substitutes - No
- Postnatal home visits in first week of life - No
- Community treatment of pneumonia with antibiotics - No
- Low osmolarity ORS and zinc for management of diarrhea - No
- Rotavirus vaccine - No
- Pneumococcal vaccine - No

- Costed national implementation plan(s) for maternal, newborn and child health available - No
- Demographic density of doctors, nurses and midwives (per 10,000 population) - No
- National availability of emergency obstetric care services (% of recommended minimum) - No
- Per capita total expenditure on health (US$) 141 (2010)
- General government expenditure on health as % of total government expenditure (%) - No
- Out-of-pocket expenditure as % of total expenditure on health (%) - No
- Official development assistance to child health per child (US$) - No
- Official development assistance to maternal and neonatal health per live birth (US$) - No
