Demographic indicators

- Total population (2006): 11,227
- Under-five population (2006): 2,066
- Births (2006): 583
- Birth registration (%): 9
- Total under-five deaths (2006): 90
- Neoreletal deaths: % of all under 5 deaths: 26
- Neoreletal mortality rate (per 1,000 live births): 41
- Infant mortality rate (per 1,000 live births): 99
- Stillbirth rate: % of 1,000 total births: 20
- Total maternal deaths: 590
- Lifetime risk of maternal death (per 1,000 births): 1.4
- Total fertility rate (per woman): 6.0
- Adolescent birth rate (per 1,000 women): 193

Nutrition

- Under-five mortality rate (deaths per 1,000 live births): [Graph]
- Maternal mortality ratio (deaths per 1,000 live births): [Graph]

Maternal and newborn health

- Skilled attendant at delivery (Percent live births attended by skilled health personnel): [Graph]
- Prevention of mother-to-child transmission of HIV (%): [Graph]

Child health

- Immunization: [Graph]
- Pneumonia treatment: [Graph]

Nutrition

- Wasting prevalence (moderate and severe, %): [Data]
- Low birthweight incidence (moderate and severe, %): [Data]
- Early initiation of breastfeeding (within 1 hr of birth, %): [Data]
- Introduction of solid, semi-solid/soft foods (%): [Data]
- Vitamin A two-dose coverage (%): [Data]

Equity

- Socioeconomic inequities in coverage: [Graph]

Developed by Countdown to report on core indicators identified by the UN Commission on Information and Accountability, in support of the Global Strategy for Women's and Children's Health.
