Congo, Democratic Republic of the

**Demographics**

- Total population (2015): 65,666
- Total under-five population (2006): 11,848
- Births (2006): 2,873
- Birth registration (%): 28
- Total under-five deaths (2006): 465
- Neonatal deaths: % of all under-5 deaths: 29
- Neonatal mortality rate (per 1000 live births): 46
- Infant mortality rate (per 1000 live births): 112
- stillbirth rate (per 1000 total births): 20
- Total maternal deaths: 19,000
- Lifetime risk of maternal death (1 in N): 24
- Total fertility rate (per woman): 5.8
- Adolescent birth rate (per 1000 women): 135

**Under-five mortality rate**

Deaths per 1000 live births

**Maternal mortality ratio**

Deaths per 100,000 live births

**Socioeconomic inequities in coverage**

**SKILLED ATTENDANT AT DELIVERY**

Percent live births attended by skilled health personnel

**Prevention of mother-to-child transmission of HIV**

- Eligible HIV pregnant women receiving ARVs for their own health (% of total ARVs):
- Percent HIV pregnant women receiving ARVs for ART for PMTCT
- Uncertainty range around the estimate

**Child Health**

**Immunization**

- Percent of children immunized against measles
- Percent of children immunized with 3 doses DTP
- Percent of children immunized with 3 doses Hib

**Pneumonia treatment**

- Percent children <5 years with suspected pneumonia taken to an appropriate health provider
- Percent children <5 years with suspected pneumonia receiving antibiotics

**NUTRITION**

- Wasting prevalence (moderate and severe, %)
- Low birthweight incidence (moderate and severe, %)

**Underweight and stunting prevalence**

- 8% children <5 years who are underweight
- 8% children <5 years who are stunted

**Exclusive breastfeeding**

Percent infants <6 months exclusively breastfed

**Notes:**

- 2006 WHO reference population

- *See Annex website for indicator definition*

**EQUITY**

Developed by Countdown to report on core indicators identified by the UN Commission on Information and Accountability, in support of the Global Strategy for Women's and Children's Health

#### Coverage along the continuum of care

- Demand for family planning satisfied
  - Antenatal care (4+ visits)
  - Skilled attendant at delivery
  - *Postnatal care*
  - Exclusive breastfeeding
  - Measles

#### Skilled attendant at delivery

- Percent live births attended by skilled health personnel

#### Prevention of mother-to-child transmission of HIV

- Eligible HIV pregnant women receiving ARVs for their own health (% of total ARVs)
- Percent HIV pregnant women receiving ARVs for PMTCT
- Uncertainty range around the estimate

#### Child Health

- Immunization
  - Percent of children immunized against measles
  - Percent of children immunized with 3 doses DTP
  - Percent of children immunized with 3 doses Hib

- Pneumonia treatment
  - Percent children <5 years with suspected pneumonia taken to an appropriate health provider
  - Percent children <5 years with suspected pneumonia receiving antibiotics

#### Nutrition

- Wasting prevalence (moderate and severe, %)
- Low birthweight incidence (moderate and severe, %)

#### Underweight and stunting prevalence

- 8% children <5 years who are underweight
- 8% children <5 years who are stunted

#### Exclusive breastfeeding

Percent infants <6 months exclusively breastfed
