

# Uzbekistan (MICS 2006)

Table - Coverage of Countdown indicators at national level and by key equity stratifiers.

	Family planning needs satisfied	Contraceptive prevalence rate	Antenatal care (1+ visits, skilled provider)	Antenatal care (4+ visits, any provider)	Skilled attendant at delivery	C-section rate	Early initiation of breastfeeding	Postnatal care for babies born at home	Postnatal care for all babies	BCG vaccine	DTP3 vaccine	Measles vaccine	Vitamin A in last 6 mos.	ORT and continued feeding	Care seeking for pneumonia	ITN use by children	Improved drinking water source	Co-coverage (6 or more interventions)	Composite coverage index

Figure 1 - Coverage levels in the poorest and richest quintiles for selected interventions along the continuum of care.

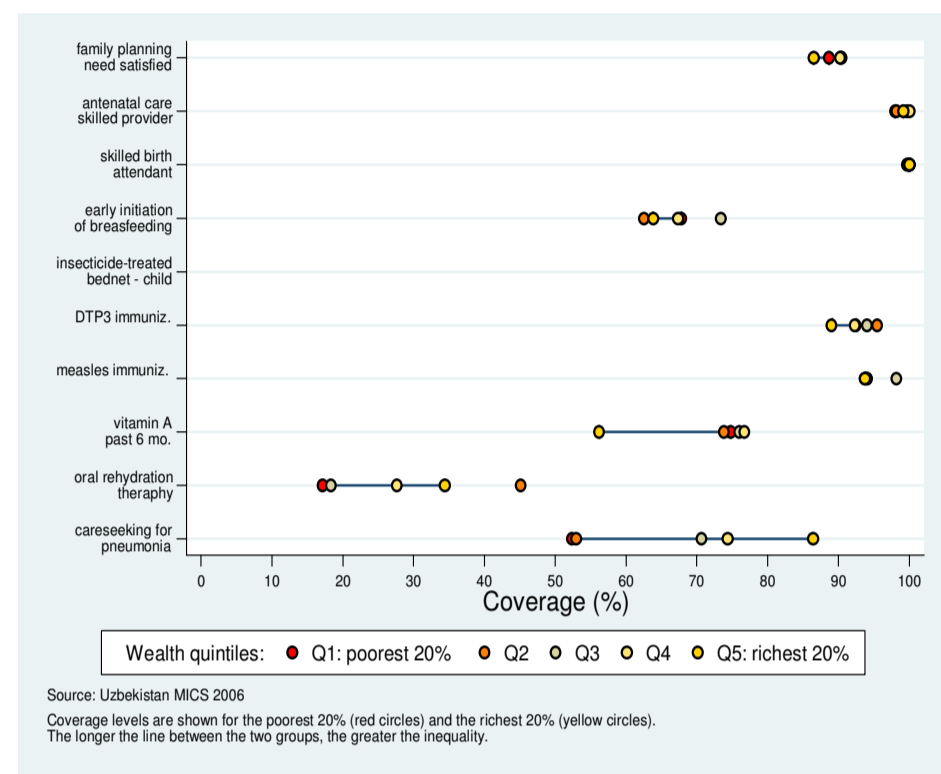

Figure 2 - Coverage levels in the five wealth quintiles for selected interventions along the continuum of care.

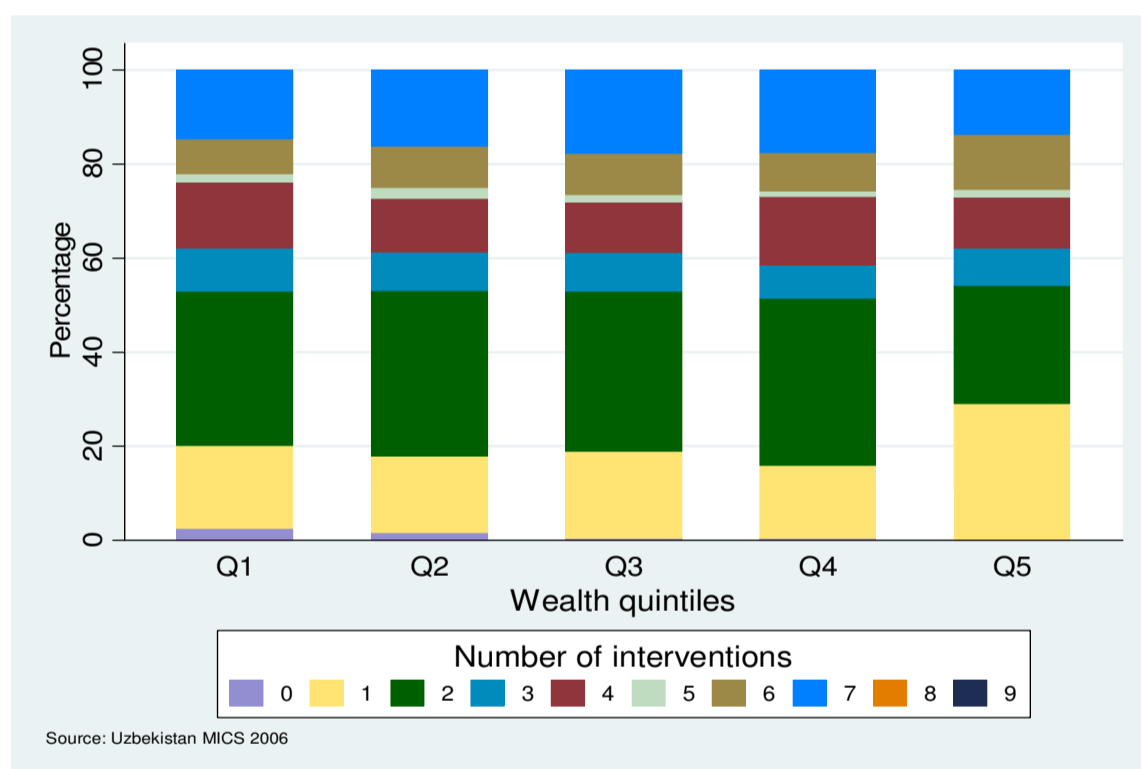

Figure 3 - Co-coverage of health interventions: percentage of children aged 1-4 years according to the number of key child-survival interventions received, by wealth quintile.

Figure 4 - Composite coverage of selected interventions and corresponding coverage gap (how much is needed to reach universal coverage), by wealth quintile.
