## Brazil

### DHS 2006

| Table: Coverage of Countdown indicators at national level and by key equity strata. Please see the example cover page profile for guidance on interpreting the table and graphs. |
|-----------------------------|------------------------------------------------------------------------------------------------|

### Family planning indicators

- **Wealth quintiles**
  - Q1: poorest 20%
  - Q2
  - Q3
  - Q4
  - Q5: richest 20%

### Antenatal care indicators

- **antenatal care (4+ visits)**
  - 1996
  - 2006

### Skilled birth attendant indicators

- **postnatal care for all babies**
  - 1996
  - 2006

### Vitamin A indicators

- **vitamin A past 6 mo.**
  - 2006

### Oral rehydration therapy indicators

- **oral rehydration therapy – 2006**

### Care-seeking for pneumonia indicators

- **careseeking for pneumonia – 2006**

---

**Source**: Brazil (DHS 1996 & DHS 2006)

Coverage levels are shown for the poorest 20% (red circles) and the richest 20% (yellow circles). The horizontal lines connect the richest (yellow circles) and poorest (red circles) quintiles. For quintiles with small sample sizes, estimates are not shown in the graphs.

---

**Figure 1**: Coverage levels in the poorest and richest quintiles for selected interventions along the continuum of care.

**Figure 2**: Coverage levels in the five wealth quintiles for selected interventions along the continuum of care.

---

**Figure 3**: Co-coverage of health interventions: percentage of children aged 1-4 years according to the number of key child-survival interventions received, by wealth quintile.

**Figure 4**: Composite coverage of selected interventions and corresponding coverage gap (how much is needed to reach universal coverage), by wealth quintile.
