#### Figure 1 - Coverage levels in the poorest and richest quintiles for selected interventions along the continuum of care.

#### Figure 2 - Coverage levels in the five wealth quintiles for selected interventions along the continuum of care.

#### Figure 3 - Co-coverage of health interventions; percentage of children aged 1-4 years according to the number of key childhood interventions received, by wealth quintile.

#### Figure 4 - Composite coverage of selected interventions and corresponding coverage gap (how much is needed to reach universal coverage), by wealth quintile.
