**Source:** Niger DHS 1998 & DHS 2012

Coverage levels are shown for the poorest 20% (red circles) and the richest 20% (yellow circles). The horizon of the black line between the two groups, the greater the absolute inequality. For quintiles with small sample size, estimates are not shown in the graphs.

---

#### Figure 1 - Coverage levels in the poorest and richest quintiles for selected interventions along the continuum of care.

- Family planning need satisfied - 2012
- Antenatal care skilled provider - 2012
- Antenatal care (4+ visits) - 2012
- Skilled birth attendant - 2012
- Early initiation of breastfeeding - 2012
- Insecticide-treated bednet - 2012
- DTP3 vaccine - 2012
- Measles vaccine - 2012
- Vitamin A past 6 mos - 2012
- Oral rehydration therapy - 2012
- Careseeking for pneumonia - 2012

**Source:** Niger DHS 2012

The horizontal lines connect the richest (yellow circles) and poorest (red circles) quintiles. The horizon of the black line between the two groups, the greater the absolute inequality. For quintiles with small sample size, estimates are not shown in the graphs.

---

#### Figure 2 - Coverage levels in the five wealth quintiles for selected interventions along the continuum of care.

- Family planning need satisfied - 2012
- Antenatal care skilled provider - 2012
- Antenatal care (4+ visits) - 2012
- Skilled birth attendant - 2012
- Early initiation of breastfeeding - 2012
- Insecticide-treated bednet - 2012
- DTP3 vaccine - 2012
- Measles vaccine - 2012
- Vitamin A past 6 mos - 2012
- Oral rehydration therapy - 2012
- Careseeking for pneumonia - 2012

**Source:** Niger DHS 2012

The maximum number of interventions for this survey is 9.

---

#### Figure 3 - Co-coverage of health interventions: percentage of children aged 1-4 years according to the number of key child-survival interventions received, by wealth quintile.

**Source:** Niger DHS 2012

The maximum number of interventions for this survey is 9.

---

#### Figure 4 - Composite coverage of selected interventions and corresponding coverage gap (how much is needed to reach universal coverage), by wealth quintile.
