

Tanzania DHS 2010

Table - Coverage of Countdown indicators at national level and by key equity stratifiers. Please see the example cover profile for guidance on interpreting the table and graphs.

	Family planning need satisfied	Contraceptive prevalence rate	Antenatal care 1+ visits with skilled provider	Antenatal care 4+ visits, any provider	Skilled attendant at delivery	C-section rate	Early initiation of breastfeeding	Postnatal care for babies born at home	Postnatal care for all babies	BCG vaccine	DTP3 vaccine	Measles vaccine	Vitamin A in last 6 mos.	ORT and continued feeding	ORS (packet or pre-packaged)	Care seeking for pneumonia	ITN use by children	Improved drinking water source	Co-coverage (less than 3 interventions)	Co-coverage (6 or more interventions)	Composite coverage index

Note: the maximum number of interventions for the co-coverage indicator for this survey is 9

Source: Tanzania (DHS 1999 & DHS 2010)

Coverage levels are shown for the poorest 20% (red circles) and the richest 20% (yellow circles). The longer the line between the two groups, the greater the absolute inequality. For quintiles with small sample sizes, estimates are not shown in the graphs.

Source: Tanzania (DHS 1999 & DHS 2010)

The horizontal lines connect the richest (yellow circles) and poorest (red circles) quintiles. The longer the line between the two groups, the greater the absolute inequality. For quintiles with small sample sizes, estimates are not shown in the graphs.

Figure 1 - Coverage levels in the poorest and richest quintiles for selected interventions along the continuum of care.

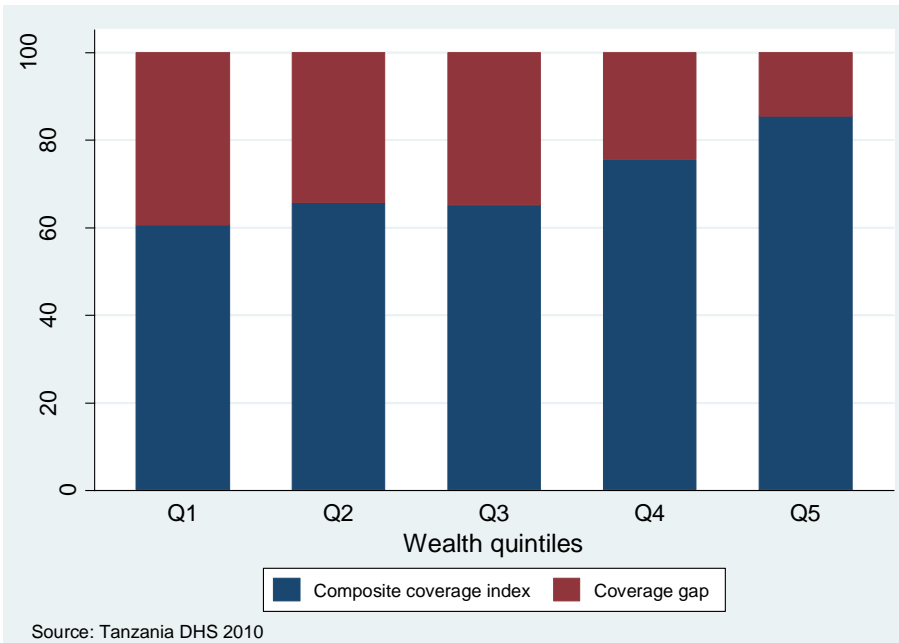

Figure 2 - Coverage levels in the five wealth quintiles for selected interventions along the continuum of care.

Source: Tanzania DHS 2010

The maximum number of interventions for this survey is 9.

Figure 3 - Co-coverage of health interventions: percentage of children aged 1-4 years according to the number of key child-survival interventions received, by wealth quintile.

Source: Tanzania DHS 2010

Figure 4 - Composite coverage of selected interventions and corresponding coverage gap (how much is needed to reach universal coverage), by wealth quintile.
